

Homework

At The Croft, homework is designed to support, challenge, scaffold, and deepen pupils' learning, helping them to consolidate classroom work and extend their understanding. It also serves as a valuable opportunity to involve parents in their child's educational journey. While the school follows a typical homework schedule, teachers may adjust this to suit the individual needs of each child. Homework should be a positive experience and never a source of conflict. If you have any concerns or require further support, please do not hesitate to contact your child's teacher, who will be happy to help.

Key Stage 1

Year Group	Activity	Communication	Day set	Day to be returned
